

# Mediasite Player Keyboard Shortcuts

All Mediasite Players have keyboard shortcuts that provide an alternative way to use the player's various controls. Some shortcuts provide additional navigational options although there may not be a corresponding Player button.

\* Shortcuts only work only when these features are available in the Player.

\*\* Only available for MultiView Players.

## Mediasite Screen Reader Player Shortcuts

The Mediasite Player supports screen readers such as NVDA and JAWS. With a screen reader, you can use the Tab, Down Arrow and Enter keys to access player features as well as these shortcuts to navigate through a presentation.

Keyboard Shortcut	Command	Available for Live	Available for On-Demand
Ctrl+Z	Activate Screen Reader Player		✓
Right Arrow (→)	Fast forward 10 seconds		✓
[	Jump back by 1% of the presentation's total length or 10 seconds, whichever is longer		✓
]	Jump forward by 1% of the presentation's total length or 10 seconds, whichever is longer		✓
Shift+[	Jump back by 10% of the presentation's total length		✓
Shift+]	Jump forward by 10% of the presentation's total length		✓
Ctrl+[	Jump back 30 seconds		✓
Ctrl+]	Jump forward 30 seconds		✓
Shift+↑	Increase volume		✓
Shift+↓	Decrease volume, mute audio.		✓

## Mediasite Screen Reader Player & ARIA Messages

Mediasite Player also supports ARIA (Accessible Rich Internet Applications) messages when using screen readers with the appropriate browser.

- When navigating to a certain point in a presentation: *Seeked to X percent.*
- When chapter changes while watching: *Entered chapter X. Y percent.*
- When navigating to a specific chapter: *Seeked to chapter X. Y percent.*

**Note:** Firefox 3.0+ required for NVDA screen reader. IE 8+ or Firefox 3.0+ required for JAWS screen reader. ARIA messages not supported with Google Chrome.
