Mediasite Mini Recorder

PLUG-AND-PLAY VIDEO CAPTURE ANYWHERE

The plug-and-play Mediasite Mini Recorder makes it easy and affordable to equip smaller teaching and learning spaces, or rooms without built in AV sources, with automated video capture. Simply mount the Mini Recorder anywhere, connect your camera and content source, and you're ready to schedule recordings. Mediasite Mini Recorder's capture-to-publish workflows guarantee you never miss a teaching, training or learning moment. All content is immediately published to your Mediasite Video Platform or Mediasite Video Cloud, providing everything you need to manage, secure, share, search and track your video.

NO-FUSS RECORDING

- Record and synchronize video from a USB camera with any HDMI content source like a laptop, whiteboard or visualizer
- Preserve every detail including annotations and mouse movements
- Pre-schedule recording start/stop times or import existing timetables
- Guarantee the best possible video quality reaches every screen with adaptive bit rate streaming

WEB MONITORING AND MANAGEMENT

- Local and remote confidence monitoring for audio, video and content quality
- Start/stop/pause recordings, adjust capture settings, manage publishing and more
- Ensure all Recorders are always up-to-date with web-based updates

ENGAGING VIDEO FOR ANY SCREEN

- Deepen learning with polls, ask-a-question, bookmarks, sharing, post-video surveys and related links
- Pinpoint exact video moments with SmartSearch and quickly navigate with slide previews and chapters
- Rearrange, resize or pop-out content to focus on what's most important
- Experience the same interactive playback on any device

COLLABORATIVE WEB EDITING

- Trim, cut and fade; add video intros/outros, chapters and watermarks; update/replace slides
- Safely revert to any previous version with a complete revision history and non-destructive editing
- Collaborate with others using review/edit/approve workflows to ensure quality

ECONOMICALLY SCALABLE

- Reduce production and support staff requirements with operator-free recording
- Eliminate user learning curves and training
- Ensure all Recorders are always up to date with web-based updates

VIDEO & CONTENT CAPTURE

- Video on-demand capture only (optional live streaming add-on available)
- HDMI input supporting:
  - HD resolutions: 1080p, 1080i, 720p (HD output as 720p – 1280x720 at 4.5 Mbps)
  - SD resolutions: 576p, 576i, 480p, 480i
  - VESA

AUDIO CAPTURE

- HDMI embedded audio
- Mono mic level input
- 3.5mm TRS mini phone jack (adaptable to RCA)

VIDEO OUTPUTS

- HDMI port for Recorder configuration

AUTOMATION & CONTROL

- Mediasite Scheduler for automated recording
- Support for schedule imports from R25/Schedule25, EMS™, Astra Schedule and Syllabus Plus
- Mediasite Monitor for remote management and confidence monitoring
- Crestron®, AMX™, Extron room control integration via TCP/IP
- Optional USB push-button recording device/indicator light

DESIGN & POWER

- On-appliance solid state content storage
- Gigabit LAN
- Kensington Security Slot
- 1.26" (height) x 4.53" (width) x 4.37" (depth)
- Power: 65W
- Input frequency: 50-60Hz
- AC voltage input: 100-240V
- Max heat dissipation: 258 BTU/h
- DC voltage output: 19V
- DC current output: 3.42A

INCLUDED EQUIPMENT

- USB – HDMI capture dongle with USB 3.0 cable
- Power cable and DC power adapter
- VESA mount bracket
