The Most Automated & Scalable Video Platform

Unlock the power of video

On-Premises

Mediasite Video Cloud

Transform how your organization communicates, learns, and grows. Deploy on-premises, in the cloud or a hybrid approach. Choose the option that works best for your department, campus, organization and budget.

The image shows a tablet and a smartphone displaying the Mediasite interface. The tablet screen shows a 'Thought Leadership' section with a grid of video thumbnails. The smartphone screen shows the 'Add Media' screen with a 'Create Blank Presentation' button and a 'What would you like to add?' section with a 'I want to upload a file from my device' option.

Tablet Screen Content:

- Home button and user profile icon in the top navigation bar.
- Search icon in the top right corner.
- Section header: **Thought Leadership**
- Grid of video thumbnails with titles and durations:

 - Unleash17 - Keynote: Supercharge Your Video Strategy with Mediasite...** (1h 28m)
 - How to Use Academic Video to Create Rising-Star Students** (51m)
 - Tips for Hybrid Meeting Success** (27m 6s)
 - The Cure for Common Corporate Video** (667 views)

Smartphone Screen Content:

- AT&T LTE, 3:18 PM, 70% battery status bar.
- training.mediasite.com URL bar.
- mediasite logo and navigation menu.
- Add Media** button and **Create Blank Presentation** button.
- What would you like to add?** section with a cloud upload icon and the text: **I want to upload a file from my device**.
- Take Photo or Video** button and **Photo Library** button at the bottom.

- **Automated Software Capture**
- **Recorders for Any Room**
- **Micro Content**
- **Video & Web Conference Recording**

TRANSFORM

Enhance powerful content.

You don't have to be a tech wizard with Mediasite's easy to use editor and robust customization tools.

Security

End-to-end protection of your entire video library and all content creation, management and editing functions guarantees only authorized users have access to any video or tool.

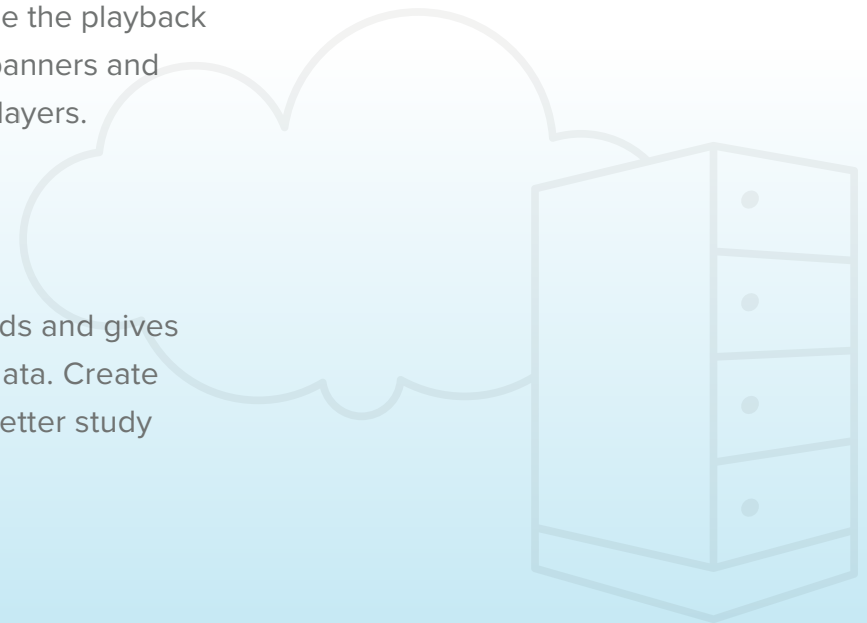

Custom Players

Empower content creators and viewers to customize the playback experience and maximize learning. Add your own banners and themes, or pick from Mediasite's built-in library of players.

Captioning & Speech-to-Text

Speech-to-text integration meets accessibility needs and gives users deeper insights than ever before into their data. Create cleaner transcripts, more accessible videos, and better study tools for all.

ENGAGE

Connect with your audience.

Maximize the impact of your videos with interactivity and engagement tools.

Annotations, Polls & Commenting

Allow viewers to interact with peers and capture feedback in real-time.

Dynamic Video Hubs

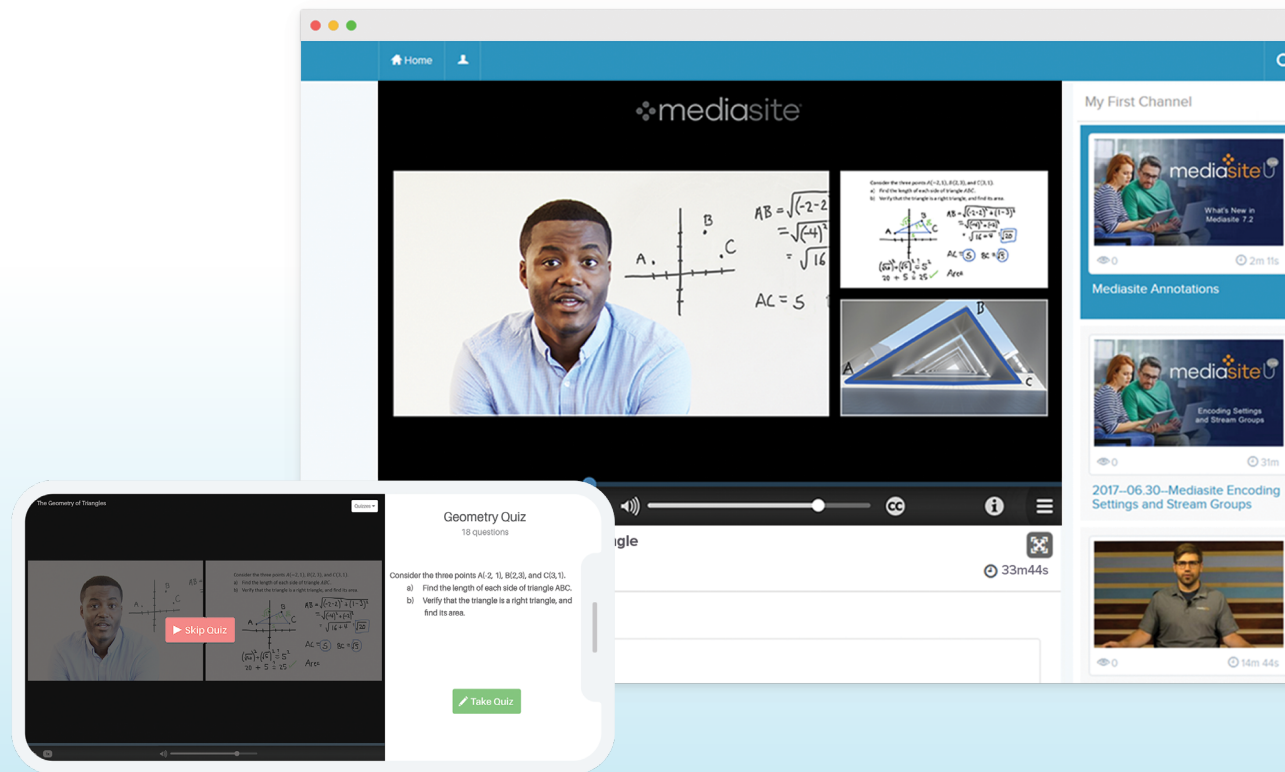

Build your own video library within your LMS, CMS, portal or site.

In-Content Search

Search for anything said or written, in multiple languages, in any video or slide.

Quizzing

Measure progress and give real-time feedback on viewers' understanding.

ANALYZE

Data at your fingertips.

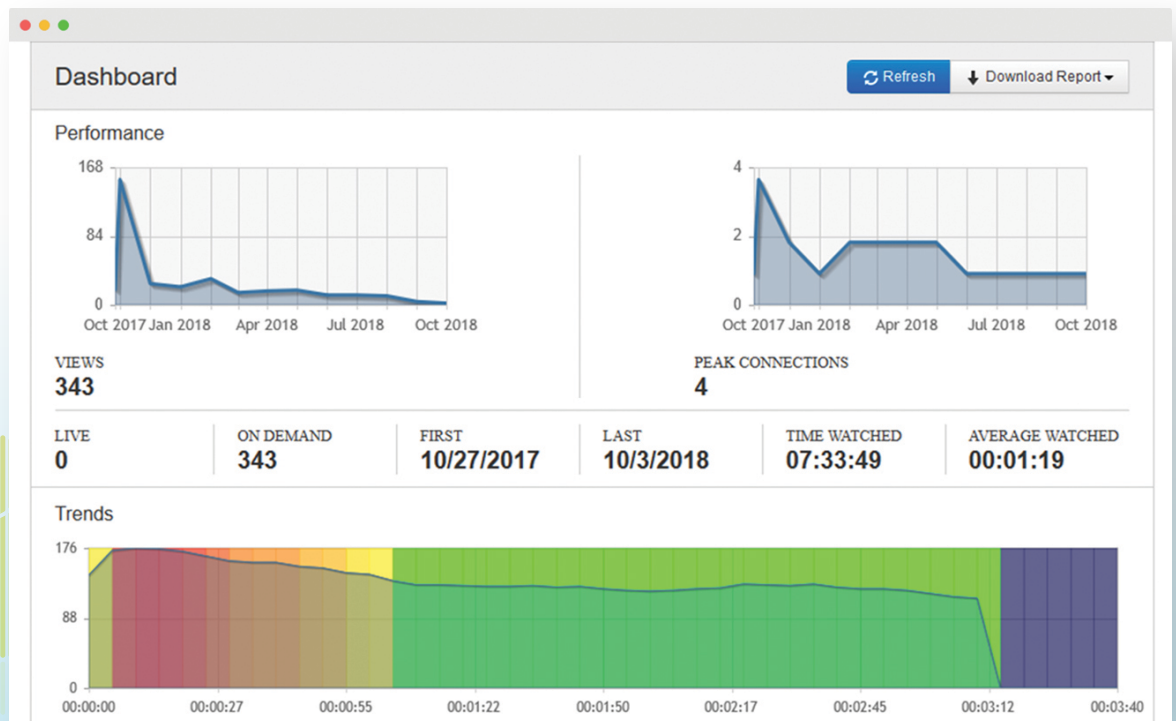

The result is deeper learning, better collaboration, and valuable feedback you can use to improve content.

Intuitive Analytics

See exactly who is watching what and when.

Success Metrics

Gauge viewer engagement in real-time to learn what works.

4,900 organization trust Mediasite for video done right.
