The Most Automated & Scalable Video Platform
Unlock the power of video

On-Premises  Mediasite Video Cloud

Transform how your organization communicates, learns, and grows. Deploy on-premises, in the cloud or a hybrid approach. Choose the option that works best for your department, campus, organization and budget.
CAPTURE

Record from any device, anywhere.

Record it all with just a click – from recorders to software capture, to your own smartphone, we’ve got you covered.

- Automated Software Capture
- Recorders for Any Room
- Micro Content
- Video & Web Conference Recording
Enhance powerful content.

You don’t have to be a tech wizard with Mediasite’s easy to use editor and robust customization tools.

**Security**
End-to-end protection of your entire video library and all content creation, management and editing functions guarantees only authorized users have access to any video or tool.

**Custom Players**
Empower content creators and viewers to customize the playback experience and maximize learning. Add your own banners and themes, or pick from Mediasite’s built-in library of players.

**Captioning & Speech-to-Text**
Speech-to-text integration meets accessibility needs and gives users deeper insights than ever before into their data. Create cleaner transcripts, more accessible videos, and better study tools for all.
ENGAGE

Connect with your audience.
Maximize the impact of your videos with interactivity and engagement tools.

Annotations, Polls & Commenting
Allow viewers to interact with peers and capture feedback in real-time.
